

# Document AI Backend – Testing Guide

**Base URL:** <http://13.51.194.236:8080/docs>

The system allows you to:

1. Upload a document (PDF or image)
2. Let the system process the document
3. Ask questions based on the document's content

The system will answer **using the uploaded document**.

**Video Walkthrough:** An MP4 video is provided. If the text is unclear, please follow the video.

**Recommended Testing Method:** **Postman** is the recommended tool for testing because it provides a clear, step-by-step interface and shows results immediately.

## Quick Health Check (Recommended First Step)

Before testing any features, confirm that the system is running

<http://13.51.194.236:8080/health>

Expected Response:

```
{"ok": true}
```

## STEP 1: Upload a Document

**Method:** POST

URL: <http://13.51.194.236:8080/documents/upload>

**Postman Steps:**

1. Open Postman
2. Select POST method
3. Enter the URL above
4. Go to Body tab
5. Select form-data

6. In Key field, type: file
7. Change key type from Text to File
8. In Value, upload a PDF or image
9. Click Send

**Expected Response:**

```
{  
  "success": true,  
  "document": {  
    "id": 1,  
    "status": "UPLOADED"  
  }  
}
```

## STEP 2: Process the Document

Method: POST

URL: <http://13.51.194.236:8080/documents/upload>

Postman Steps:

1. Select POST
2. Click body ->form-data
3. Select key file
4. Upload document in Value and set description according to conditions

**Expected Response:**

```
{  
  "success": true,  
  "document": {  
    "id": 2,  
    "filename": "document.pdf",  
    "file_type": "pdf",  
    "status": "UPLOADED"  
  }  
}
```

## **STEP 3: Ask a Question**

Method: POST

URL: <http://13.51.194.236:8080/questions/ask>

Postman Steps:

1. Select POST
2. Go to Headers  
Content-Type: application/json
3. Go to Body
4. Select raw
5. Select JSON
6. Paste the following:

```
{  
  "document_id": 1,  
  "question": "What is this document about?",  
  "top_k": 5  
}
```

### **Expected Response:**

```
{  
  "success": true,  
  "answer": "Based on the uploaded document, the most relevant excerpts are:  
writing a novel. Sarah, the college student who studied there most afternoons, was convinced she was a spy documenting secret missions. Marcus never asked. Some mysteries were better left alone. The shop had its own rhythm, its own personality. The espresso machine would
```

wheeze and groan every third shot, but the coffee always came out perfect. The bell above the door had a particular chime that regulars could recognize from the street. denim jacket could pour cup .",
